

# Dignity in Action

August 6, 2025  
Medford, OR

With John Krownapple  
and Summer Snyder

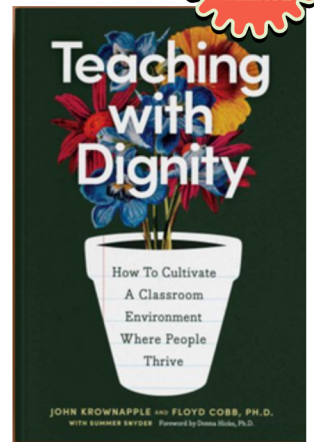

Whether you're just beginning to explore dignity or have already integrated elements of it into your work, this day together offers a grounded next step. Drawing from the the new book, *Teaching with Dignity*, we'll move from concept to action—highlighting specific practices that educators can use to cultivate cultures of dignity across classrooms, schools, and systems. Expect to revisit familiar touch-points and expand your toolkit with strategies that support student belonging, staff wellbeing, and sustained improvement. This is dignity in motion: practical, transformative, and aligned with your ongoing efforts to provide the best classrooms and schools possible. Space is Limited - Save Your Spot, ASAP.
